

THE SOUTHERN BANK COMPANY

Partners With SMS Guardian® to Offer Debit Card Protection for Our Customers

It never hurts to have an extra level of protection from identity theft and fraud. With this free* service, the SMS Fraud Center will contact you by text message each time your Debit Card is used in an unusual or out-of-pattern manner. If a transaction is legitimate, you need not reply. If however, a fraudulent use has taken place, you may reply by text and your card will be blocked from further criminal activity. You must of course, use a cell phone or tablet capable of receiving text messages and you must enroll for this service online. Simply visit sobanco.com/CardGuardian to enroll.

Recognizing fraud or identity theft immediately after a transaction has taken place reduces the chance that further fraud and unauthorized use of your card will take place. With SMS Guardian® protection, you can rest assured that your identity and money are being protected 24/7.

**Data and message rates may apply. Please check with your carrier.*
